

HEALTH, SAFETY & ENVIRONMENT

Bronco Oilfield Services

Bronco Oilfield Services (BOS) is committed to the safety of our employees, customers, environment and communities in which we operate.

It is the objective of Management to further encourage and promote methods and procedures leading to increased safety protection and health among all employees.

The policy of the Company is to provide a work environment that promotes a culture for safety that complies with OSHA regulations and customer requirements while minimizing risk to our employees and being a good Stewart to the environment.

We maintain a proactive approach to ensure a drug and alcohol-free workplace. The Company maintains an in-house drug and alcohol program, in addition to utilizing DISA and TPS Alert.

Additionally, the Company employs Axiom Medical, a comprehensive medical management solution to provide expertise in the areas of incident case management and occupational health.

Bronco Oilfield Services is fulfilling a commitment to its employees, customers, and vendors by positioning the company as an industry leader in workplace safety and compliance. Utilizing state-of-the-art training modalities, BOS employees are provided with opportunities to be part of a company culture which places safety first. Training is conducted via web-based, third party interactive training approaches, along with hands on training.

Learning & Training

The company has established a “Human Error Reduction” initiative. The goal of this initiative is to be incident free with zero work-place related injuries or illnesses to personnel. This goal is accomplished through awareness training, and monitoring fieldwork through investigation of work-related incidents, and increased safety audits .
