

3-1/16” 15K Choke Manifold (3” Trim)

Feature Benefits:

- **15K WP/H₂S Rated**
- **Remotely Operated**
- **Hydraulic Operated Valves** - Manifold can be operated from up to 200ft away for increased safety especially during flow back operations and in H₂S environments.
- **Hydraulic Choke** - Maximum Orifice: 3 inch (2” available). With the use of Hydraulic Choke, return rates and pressures can be adjusted remotely. Choke can be manually operated if needed.
- **Manifold Design:** Allows for bypass of chokes.
- **Washout area** are protected by easily replaced blind flanges and wear sleeves.
- **Skid Mounted** – Sling and Fork Lift Pockets.
- **Hardened Carbide Trim Choke for abrasive services - longer life**

Specifications:	
Input:	3-1/16 x 15k API Flange
Output:	3-1/16 x 15k API Flange
Pressure	15kpsi
Dimension:	8' x 11' x 4'
Weight	17,345 lbs
